diseases for which a Porous Plaster has been used.

Its infarvelous influence over the circulation, and general effect on the system is almost incredible; from the moment of its application to the affected part, it operates with astonishing vigor—brings relief and cures more effectually than any known Plaster, Liniment or Compound. It is a genuine pharmaceutical preparation of the highest order of merit; its ingredients are entirely vegetable and free from Mineral or Metal Poisons. One trial will convince the most skeptical of its superiority over the ordinary Porous Plasters. When you desire prompt and immediate relief, ask your druggist for Benson's Capeine Plaster.
